

Welcome to the Oklahoma Intercollegiate Forensics Association State Championship Tournament Home page. We are excited to be bringing this open tournament to Tulsa Community College for the second year where the event will be hosted on the Tulsa Community College Southeast Campus. We are going to be hosting a Full Comprehensive Tournament with 3 Divisions of IPDA on Friday and a Full 11 event IE tournament on Saturday that is open to any college or university team or students that would like to attend. OIFA does ask each team considering attending to please bring judges to cover their entry. Judges are hard to come by and OIFA does not have the depth of funds to spend to hire judges from around Oklahoma.

We are going to run a tight schedule to get you in and out of the event as fast as possible. We are going to be providing meals to the students that are competing. That means if your students have dietary restrictions we need you to let us know so we can adjust our orders to best fit the needs of your students. This is being made possible by the Tulsa Community College Foundation through a generous donation. OIFA as an organization is going to cater breakfast for you Friday and Saturday morning with hot coffee and water available all day. We want you to have the easiest time navigating this event and we want to take care of you as much as possible.

The Southeast Campus is Located at 10300 E 81st St Tulsa OK. There are probably 15-20 hotels near the campus, including two that border the campus. Unfortunately, TCC cannot work with a specific hotel to guarantee room blocks or rates. We recommend staying at most of these hotels as there are tons of hotels to fit your team's budget. Please notify John of any accommodations your teams needs.

Finally, we are going to have some fun awards at this event for you. We are going to offer standard awards (top 3 debate, individual events, comprehensive and top 4 pentath competitors) plus Top Community College, Oklahoma Coach of the year, Oklahoma Forensicator of the Year, and Top Novice Competitor. So make sure that you come to Tulsa February 21-22, 2024 to bring home lots of trophies. We will be using SpeechWire for tournament registration and entries.

Sincerely,

John Mikolajcik

OIFA President, Director of Forensics at Tulsa Community College
